# Passage to ASEAN (P2A) Global Sustainable Mobility 2025

# Short Program on Sustainable Ecotourism for a Better Future (SEFuture)

The Passage to ASEAN (P2A): Global Sustainable Mobility short program is designed to foster cross-cultural understanding and collaboration among students from ASEAN countries and beyond. This annual program serves as a platform for participants to engage in learning activities focused on pressing global issues.

In 2025, the program will highlight the theme "**Sustainable Ecotourism for a Better Future (SEFuture)**," aiming to preserve natural ecosystems, support local communities, and promote cultural heritage. As tourism continues to be a significant economic driver in the ASEAN region, sustainable ecotourism emerges as a key solution to balance economic growth with environmental conservation.

As cities and rural landscapes face environmental degradation, it is crucial to implement ecotourism practices that promote conservation and community well-being. UII commits to support sustainable development goals, particularly:

- **SDG 11 (Sustainable Cities and Communities)** – Promoting responsible tourism for urban sustainability.
- **SDG 15 (Life on Land)** – Ensuring the protection of forests, biodiversity, and ecosystems.
- **SDG 17 (Partnerships for the Goals)** – Strengthening global cooperation for sustainable tourism.

UII offers a short program to foster dialogue, share best practices, and strengthen partnerships among overseas partners to create a sustainable ecotourism model that benefits nature and society.

## Event Details:

**Date:**

4 - 10 August 2025

**Location:**

Universitas Islam Indonesia,  
Yogyakarta, Indonesia

## Why Join?

- ✔ Learn how ecotourism supports sustainable cities and biodiversity
